## PROFESSIONAL SUMMARY

Aspiring Full-Stack Developer with hands-on experience building modern, responsive web applications using the MERN stack and REST APIs. Proficient in React.js, JavaScript, Node.js, Express.js, MongoDB, MySQL, and Sequelize, with practical experience in authentication, database-driven applications, API integration, real-time communication, and application deployment. Passionate about building scalable, user-focused solutions and continuously learning modern web technologies.

## FEATURED PROJECTS

### NeuroVault — Personal Knowledge Management Platform

MERN Stack · JWT · MongoDB Atlas · Resend API · React

- Developed a full-stack personal knowledge management application using MongoDB, Express.js, React, and Node.js.
- Implemented secure JWT-based authentication and protected application routes.
- Built separate client and admin interfaces with role-based functionality.
- Integrated email functionality using the Resend API; deployed frontend on Vercel and backend on Render.
